ENTITLEMENT PROCESS (Zoning Ordinance Section 2-18-01 (ATTEND X A))

The review process for a Zoning Application involves multiple steps and coordination among various stakeholders, typically spanning 4-5 months. It begins with a Pre-Application Meeting with the Technical Staff team, if you have not yet been scheduled for one of these meetings, please contact one of our Zoning Planners.

The deadline for submitting a Zoning Application for review is forty-five (45) days prior to the desired Zoning Board of Appeals (ZBA) meeting date. Please note, applicants are encouraged to submit their applications 1-2 weeks prior to the official deadline for a completeness review by a Zoning Planner to ensure a seamless review process.

If required, the petition may proceed to the Regional Planning Commission (RPC) for review and recommendations to the Zoning Board of Appeals (ZBA). The ZBA then holds a public hearing, to make recommendations to the Kane County Development Committee. The final decision is made by the Kane County Board (KCB) after reviewing all prior recommendations, with meetings typically held on the second Tuesday of each month.

PROJECT INFORMATION

Project Title: Townsend Rezoning

Proposed Land Use: E-1 Estate

Project Description: *(Briefly describe your project below or attach a separate Project Narrative with this Application if more space is required)*

This parcel has been and is intended to be a large residential parcel. In the process of reconfiguring and/or selling the lot, Owner was notified that this parcel was Zoned F, notwithstanding the fact that it has not been farmed for decades, if ever. Therefore, the Owner is requesting the parcel be rezoned to E1 Estate.

Any future structures shall be built exterior to the ultimate 75' half right of way as measured from the IL Rt 31 centerline and the 35' building setback.

ADDITIONAL PROJECT INFORMATION

1. How does the proposed use relate to the existing uses of property within the general area of the property in question?

Parcel to the north is Forest Preserve District. Parcels to the south are each residential parcels, zoned F but developed and constructed as if they were zoned E-2 or E-3 with a variance for required frontage as most of the parcels to the south appear to lack the required frontage width.

2. What are the zoning classifications of properties in the general area of the property in question?

FP
F

3. How does the suitability of the property in question relate to the uses permitted under the existing zoning classification?

This parcel was a residential parcel until a house fire caused the house remnants to be removed.

4. What is the trend of development, if any, in the general area of the property in question?

The area is fully developed as residential, with many lots to the south substantially smaller.

5. How does the projected use of the property relate to the Kane County 2040 Land Use Plan?

The use proposed is consistent with the 2040 Plan reflecting Rural Residential. This parcel is Rural Residential. As the non-buildable portion of the parcel is floodplain it will be preserved for uses consistent with River Access. Even though the southerly lots are all smaller at 4.41 acres the E-1 classification provides an appropriate transition from Forest Preserve/Open Space on the north to much smaller presumably nonconforming lots to the south.
