Subject: RE: Anamite Solar Use of S Randall Road and Bowes Road

Good Morning Doris – and thank you for confirming this route is acceptable. None of the construction loads are anticipated to be over 80,000 pounds, and therefore I believe this will be the construction route for Anamite Solar, LLC

Have a great weekend,
Jake

Subject: RE: Anamite Solar Use of S Randall Road and Bowes Road

Hello Jake –

Thank you for reaching out to KDOT regarding your route to the proposed Solar Facility at the SW corner of Bowes Rd (Co Hwy 17) and Nolan Rd. A culvert (Structure # 045-3047) over Fitchie Creek located approximately ¼ mile east of Nolan Rd is rated for Legal Loads Only (LLO). Legal loads are below 80,000 lbs. Vehicles that are 80,000 lbs or more cannot cross this culvert. If any of your construction vehicles are over this weight limit an alternate route is required.

KDOT issues Over-Size/Over-Weight (OS/OW) permits for County Highways and Township roadways. These permits are issued using the Oxcart website for permits.

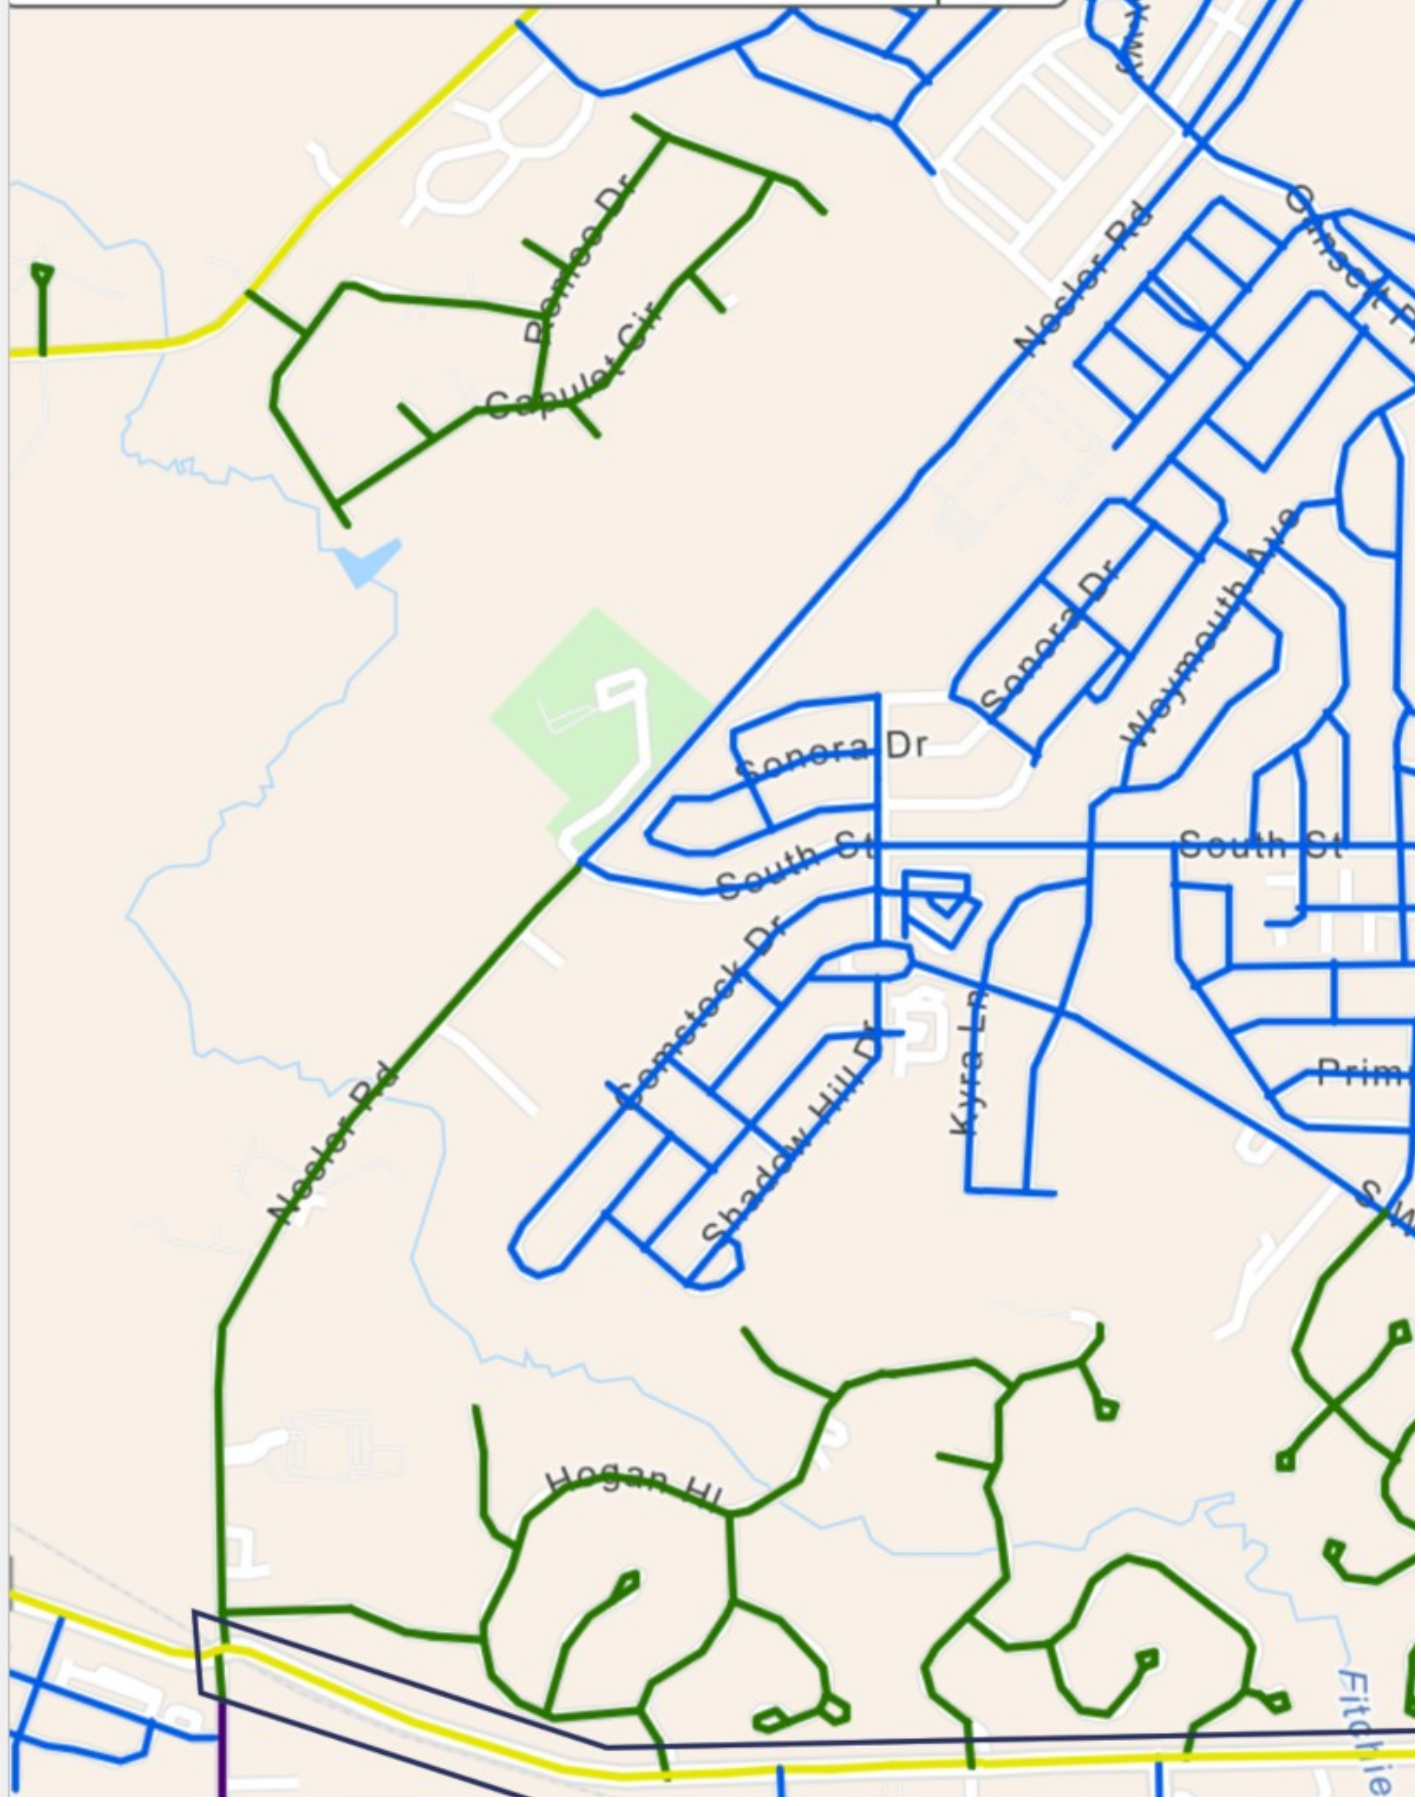

If you have additional questions, please do not hesitate to contact us.
Thank you, Doris Hohertz, P.E.

Subject: EX: Anamite Solar Use of S Randall Road and Bowes Road

Hi Doris – I am reaching out for informal confirmation that the Anamite Solar can use S Randall Road and Bowes Road for delivery of construction materials when it begins construction. This is just a preliminary approval for the purposes of submitting the special use application. The picture below show the proposed route.

Thank you,
Jake
