**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

Dear County Board Member,

I am writing as a resident of West Highland Acres Unit No. 2 Subdivision to express my opposition to Petition #4666 regarding the proposed solar farm adjacent to our neighborhood.

While I support renewable energy in principle, this project raises serious concerns for our community, including:

- Compatibility with our residential area - the project is directly adjacent to homes and will negatively impact property values and neighborhood character.
- Environmental concerns - the site has had drainage issues and now drains into the backyards of several residents.
- Alternative siting - more suitable locations exist for this type of project that would not so directly impact established neighborhoods.

I respectfully urge you to oppose Petition #4666 when it comes before the County Board. Protecting the quality of life, safety, and environment of our community should remain the top priority.

Thanks you for your time and representing the interests of your constituents.

Sincerely,

Jim and Kira Absolon
