Dear Natalie Zine, As I understand there is a final vote on Tuesday October 14th for zoning petition #4666. My husband and myself are not able to attend due to work requirements but we wanted to reach out to you to oppose this. We bought our property 8 years ago because of the near by farm land and this would take away from that. Not to mention we have no idea the long term effects of living near solar facilities. We hope you will reject this rezoning.

Thank you-
Lynette & Craig Welker
