## ENTITLEMENT PROCESS (Zoning Ordinance Section 25-16-5: APPENDIX A)

The review process for a Zoning Application involves multiple steps and coordination among various stakeholders, typically spanning 4-5 months. It begins with a Pre-Application Meeting with the Technical Staff team, if you have not yet been scheduled for one of these meetings, please contact one of our Zoning Planners.

The deadline for submitting a Zoning Application for review is forty-five (45) days prior to the desired Zoning Board of Appeals (ZBA) meeting date. Please note, applicants are encouraged to submit their applications 1-2 weeks prior to the official deadline for a completeness review by a Zoning Planner to ensure a seamless review process.

If required, the petition may proceed to the Regional Planning Commission (RPC) for review and recommendations to the Zoning Board of Appeals (ZBA). The ZBA then holds a public hearing, to make recommendations to the Kane County Development Committee. The final decision is made by the Kane County Board (KCB) after reviewing all prior recommendations, with meetings typically held on the second Tuesday of each month.

## STANDARDS OF A VARIANCE (ZONING CODE SECTION 25-4-4-3)

Variations, as defined by the Zoning Ordinance, shall be considered at a public hearing before the Zoning Board of Appeals (ZBA). The board of appeals shall reach its decision within thirty (30) days from the date of the public hearing on the request for variance. Four (4) of the seven (7) members of the board of appeals must concur in order to grant a variance. No variation shall be made unless the Zoning Board of Appeals finds that there is a practical difficulty or some particular hardship upon the property if the regulations are applied AND that each of the Standards of a Variance are met. If the variance is granted, the action of the Zoning Board in granting a variation shall contain or be accompanied by Findings of Fact specifying the reasons for making such variation.

**Please describe the practical difficulty and/or hardship that applies to your variation request.**

The property is adjacent to an abandon Kane County road called Kane road. I am petitioning to remove the setback on the property on the south property line to place the proposed building near the current property line, reducing the 40 foot setback. Due to the fact that the abandoned Kane road will leave more than enough of a barrier to Riverside road (active) to allow for more than 40 feet of a setback on the new property lines. There will be no visibility obstructions to the adjacent road, Jackson street. This would allow for better use of the property for the building of the single-family home. The transportation department recognizes that building of Kane road has been abandoned.

**A request for a variation shall also find the following statements to be true. Please explain how each of the statements listed below will be true should the request for a variance is granted. Responses should be as detailed as possible – if you require additional space, you may submit a separate sheet of paper.**

**A. The variation will not impair an adequate supply of light and air to adjacent property;**

There is no adjacent property to the south. It is an abandoned road called Kane road and a forest preserve beyond that.

**B. The variation will not increase the hazard from fire and other dangers to adjacent property;**

There is no hazard other than a normal single-family home would present in a rural residential area.

There is no adjacent property to the south, adding no fire hazard to another home. It is an abandoned road called Kane road and a forest preserve beyond that.

**C. The variation will not diminish the value of adjacent land and buildings;**

The variation would increase the value of the residential homes in the area.

**D. The variation will not increase the congestion or traffic hazards in the public streets and highways; and**

There will be no visibility obstructions to the adjacent road, Jackson street.

**E. The variation will not otherwise impair the public health, safety, comfort, morals and general welfare.**

No, single-family home would only help.
