

**Preliminary Stormwater Management Report**  
**Pallme Farm Solar (the Project)**  
**ILSolar08LLC (the Applicant)**

Applicant commits to complying with all applicable rules and regulations that apply to the construction of the Project, including utilization of required Best Management Practices (BMPs).

Prior to construction, the Applicant will prepare and submit to Kane County a full stormwater management plan and associated required engineering and documentation, in accordance with the applicable requirements of the Kane County Stormwater Management Ordinance. Applicant understands that Kane County will require “effective disconnected impervious area” calculation for determining the impervious area for the Project.

A National Pollution Discharge Elimination System (NPDES) Permit and associated Storm Water Pollution Prevention Plan (SWPPP), including BMPs for soil erosion and sedimentation control, will be required if site disturbance is greater than one (1) acre.
