## ENTITLEMENT PROCESS (Zoning Ordinance Section 25-16-5: APPENDIX A)

The review process for a Zoning Application involves multiple steps and coordination among various stakeholders, typically spanning 4-5 months. It begins with a Pre-Application Meeting with the Technical Staff team, if you have not yet been scheduled for one of these meetings, please contact one of our Zoning Planners.

The deadline for submitting a Zoning Application for review is forty-five (45) days prior to the desired Zoning Board of Appeals (ZBA) meeting date. Please note, applicants are encouraged to submit their applications 1-2 weeks prior to the official deadline for a completeness review by a Zoning Planner to ensure a seamless review process.

If required, the petition may proceed to the Regional Planning Commission (RPC) for review and recommendations to the Zoning Board of Appeals (ZBA). The ZBA then holds a public hearing, to make recommendations to the Kane County Development Committee. The final decision is made by the Kane County Board (KCB) after reviewing all prior recommendations, with meetings typically held on the second Tuesday of each month.

## PROJECT INFORMATION

Project Title:

Proposed Land Use:

Project Description: (Briefly describe your project below or attach a separate Project Narrative with this Application if more space is required)

USS Webb Solar LLC is a proposed 1.25MWac commercial solar energy system on approximately 10 acres of the 16 acre parent property.

## ADDITIONAL PROJECT INFORMATION

1. How does the proposed use relate to the existing uses of property within the general area of the property in question?

The surrounding area is characterized by agricultural land and single-family residences allowed on land zoned for farming. The property in question will remain agricultural land if the land-use petition is granted.

2. What are the zoning classifications of properties in the general area of the property in question?

Farming and Estate Residential (E3)

3. How does the suitability of the property in question relate to the uses permitted under the existing zoning classification?

The proposed use converts sunlight into a commodity that can be exported using existing public infrastructure. Additionally, the vegetative management plan provided by petitioner identifies the plant species and management practices that will ensure the long-term health of the soil and drainage characteristics of the property. These practices and outcomes are identical to agricultural cultivation, which is permitted under the existing zoning classification.

4. What is the trend of development, if any, in the general area of the property in question?

The area west of the subject parcel developed into low-density housing in the 1990s. In the 25 years since, no material development has occurred. East of Brier Hill Rd., the land has remained in agriculture with no perceptible development trend.

5. How does the projected use of the property relate to the Kane County 2040 Land Use Plan?

The Kane County 2040 Land Use Plan advises that this land will remain in agriculture, which is compatible with the petitioner's proposed use.
