USS Webb Solar CUP Layout - 11.19.15.pdf;

Hello Mr. Rowlett,

I hope you are doing well. My name is Edmond Fitzgerald and I am a permitting specialist with US Solar. I'm reaching out to notify you of a proposed community solar project that we will be submitting for a special use permit very shortly. Our access will be an existing driveway at 14N397 Brier Hill Road, which I believe is in Hampshire Township road jurisdiction. I've attached a site plan so you can take a look at what we are proposing. The project itself will be set back approximately 250' from Brier Hill Road. I wanted to confirm that there are no concerns with utilizing the existing access location. Please let me know if you have any questions or if I can provide any additional information for you.

Thank you,
Edmond Fitzgerald
