REVIEW & ANALYSIS

ZONING

The subject property is currently zoned F-Farming District. The petitioner is seeking a rezoning to allow each existing home to be on its own separate parcel. The remaining property will be placed in a Farmland Conservation Easement which will prevent any future development of the property.

FUTURE LAND USE

The proposed installation falls within the Agricultural area of the Kane County 2040 Land Use Map. These areas have been determined preferable for low density residential development, small specialty farms, community-based agriculture, and other farming operations.

SCHOOL DISTRICT

Thank you for providing notice of Kane County Zoning Petition No. 4687 regarding the proposed rezoning of the properties located at 50W394 and 50W372 Peterson Road in Virgil Township. Kaneland CUSD # 302 has reviewed the application materials. Based on the information provided, the District understands that the request is limited to rezoning approximately five acres surrounding two existing residences to accommodate a phased transfer of ownership, with no new residential construction or additional development proposed. At this time, the District has no comments or objections to the proposed rezoning. (Email 6-30-2026).

ENVIRONMENTAL HEALTH

Each home would need its own water well and septic system to support the home on the parcel on which it is contained. Septic must be fully contained to the parcel it is located within. (Email 6-25-2026)

TRANSPORTATION

The Kane County Department of Transportation (KDOT) reviewed this Petition and has no comments (Email 8-20-26)

WATER RESOURCES

The Water Resources department reviewed the Zoning Petition and provides the following comment and stipulation:

The site contains unstudied closed depressional areas, some of which are mapped in the FEMA Flood Insurance Rate Maps. Any new construction will need to meet the building standards of the Kane County Stormwater Ordinance and a flood study to determine the Base Flood Elevation. Some sites, particularly those that contain floodplain are not suitable for basements.

1. **STIPULATION:** For any Development in the future as defined by the Kane County Stormwater Management Ordinance on the resulting F-1 and F parcels that singularly results in greater than 5,000 sq ft of new impervious area, or cumulatively (as of Jan 1, 2002) results in greater than 25,000 sq ft of new impervious area or 3 acres of disturbance, Stormwater Management Measures, as required by the Kane County Stormwater Ordinance, shall be provided.
