The application for a Natural Resources Inventory was sent to the Kane-DuPage Soil & Water Conservation District (KDSWCD) in compliance with Section 22.02a of the Illinois Soil and Water Conservation District Act.

According to the information received, a Natural Resources Inventory is not required at this time for the proposed zoning change because there is no ground disturbance within the parcel. Therefore, no further action will be taken by the Soil and Water Conservation District Board. All NRI decisions are valid for five years for the stated purpose only. However, **if there are deviations from the submitted application or plan or increase of impervious surface, a full NRI report may be required, and an application may need to be resubmitted.** If you have any questions concerning this letter, please contact KDSWCD office at the address or phone below.

Sincerely,
