Subject: EX: Petition 4693
Date: Tuesday, September 29, 2026 10:28:17 AM

Good morning Catherine, I have been a residence of Almora Heights since 1961. It deeply saddens me to hear that Kane-County Zoning Board of Appeals is hearing a petition 4693 for a commercial SolarEnergy facility on prime farm land. This land locked land is currently a producing cornfield. Located next door to residential homes in Almora Heights and West Highland acres subdivisions in Elgin. I would like to know how they intend to route the power out of this land. Not to mention this is in people's backyard that live here for a reason and that reason is the hiking trails and the open property behind them. Kane County forest preserve owns a portion of this land. I would think a forest preserve option would be much better route. In my opinion, solar panels belong on top of buildings, not premium farmland that Illinois is known for. I ask that you halt this petition on behalf of Illinois residence. I thank you for hearing me out and addressing this matter.

Thank you in advance! Have a great day

N-
