Zoning Petition # (4694)
Project Name (Northern Illinois Recovery LLC) Name and Address: Timothy L & Charlotte A Nolan

Opposed to petition to allow for the establishment of a Residential Treatment Facility at above noted location
Comment - We have safety concerns for the people living in our subdivision, especially children with individuals that are not associated with the family ownership of houses in our immediate neighborhood. In addition, having this treatment facility located this close to our residential community will impact the desirability of potential buyers considering purchasing our homes when comparing to other similar homes that do not have this added concern.
