Hi Keith,

I wanted to follow up after the meeting last week on the 12th. We were quite surprised by the neighbors' opposition given our previous outreach and their lack of response to that earlier outreach. We unequivocally attempted to contact everyone in the area, and have the records to show it. In addition, we had further discussions with them on the night of the 12th after the meeting ended. That said, given the feedback from the meeting and after, we would like to delay this matter for a month or more while we and the landowner discuss with the neighbors the issues aired, and consider ways to mitigate concerns in a fair manner. Thus, we request that this project be removed from the October ZBA agenda and remain paused until further notice.

Thank you,
Andy
