Summary:

The Kane County Development & Community Services Department worked to advance the Kane County Board's "Growing for Kane Program" by proposing text amendments to the Kane County Zoning Ordinance. The proposed amendments are responsive to the changing needs of farmers and local food businesses in Kane County and to streamline administrative approvals for permits. The proposed amendments will also provide several new definitions that address the County's growing agritourism industry. The goals of the amendments are to make it easier for local growers to sell their products directly to consumers as well as for consumers to access healthy food products and share in the farm experience through direct sales, activities, entertainment and events.
